ILG announces the First-to-market compatible Color cartridges CE740 series for the HP CP5225 laser printer

WOODLAND HILLS, Calif. — **ILG** (International Laser Group) announces the first-to-market releases of the **HP color** series **CE740A, 741A, 742A, and 743A** compatible cartridges for use in CP5225, CP5225dn LaserJet printers.

This high-demand HP compatible color series offers a 7300 page yields for black and 7000 page yield for color series: CE741 (c), CE742 (y), CE743 (m), matching OEM in print yield.

The CP5225 compatible color cartridges from ILG produce an outstanding quality print result with solid dark print details and sharp color output. These cartridges are manufactured in the USA by ILG and are produced under stringent manufacturing guidelines.

In addition, ILG has added **MPS CERTIFIED™** optimized cartridge testing protocols to its extensive product line. **MPS CERTIFIED™** brand products are developed, and designed to provide the highest quality print performance in MPS print environments. These cartridges are designed to perform in challenging applications such as duplexing (double-sided printing), full color bleed printing and environmental extremes.

These US made color cartridges offer the best value and cost savings, allowing the dealers to make substantially higher profit margins compared to OEM margins.

ILG color products also feature the use of the **SMART COLOR SYSTEM™** to its color cartridge manufacturing. A system designed to enhance the color print quality and eliminate toner leakage or build-up, resulting in clean streak-proof print that matches OEM in consistency and performance.

Joe Shulman, V.P. of client relations commented, “Not only are we the first-to-offer the CE740 series compatible to the industry, but we have added **MPS CERTIFIED™ performance** testing protocols to our cartridges. ILG continues to improve the manufacturing technology in order to offer better product performance and stay ahead of the competition.”

Headquartered in Woodland Hills, California, ILG ships from four additional distribution facilities in San Diego, California; Illinois, Texas, and Pennsylvania enabling us to offer next day delivery. Each toner cartridge offers a 2 year warranty with a 100% satisfaction guarantee.
