ILG RELEASES FIRST-TO-MARKET OEM ALTERNATIVE DELL 5330dn PRINTER CARTRIDGE 330-2045

WOODLAND HILLS, Calif. — ILG (International Laser Group) releases the OEM alternative **Dell 5330 dn printer black cartridge 330-2045** with 20,000 page-yields.

DELL 5330dn is a technologically challenging products for OEM alternative manufacturers. ILG is proud to be first-to-market with this high demand product, and to showcase their engineering leadership in the industry

The DELL 5330dn offers 50ppm, 600x 600 dpi and produces high-volume, clear images with sharp text and it is one of the most popular, cost effective large workgroup monochrome printers. The compatible 330-2045 from ILG offers the same outstanding print sharpness that matches OEM in quality.

ILG applies several testing methods in their manufacturing technology, and utilizes the **Leak-Guard** toner seal, which is a durable air tight seal that prevents toner leakage. ILG's quality assurance testing methods eliminate streaking or toner buildup and assure that each cartridge produces excellent quality print result.

ILG offers an extensive line of Dell and other quality OEM alternative products in monochrome and color. Our 700 SKU's of in-depth product lines, including our exclusive JUMBO COLOR® toner line and over 200 SKU's of color products, are available for next day delivery through our four nationwide strategically located distribution centers.

ILG is one of the world's top private-label and private box contract manufacturers in North America. Each and every ILG printer cartridge is 100% guaranteed and is STMC certified. ILG is headquartered in Woodland Hills, California.
