

**BREAKING NEWS**

**NEW PRODUCT RELEASE**

For Immediate Release: September 26, 2011

## **ILG is First-to-Market with CE390X OEM alternative toner cartridge for use in the HP M4555 printer**

**WOODLAND HILLS, Calif. — ILG** (International Laser Group) announces today a break-through new release with the first-to-market **CE390X** OEM alternative High-Yield cartridge for use in the **HP LaserJet M4555f, M4555h, M4555fskm** printer series.

The CE390X black cartridge offers a 24,000 page yield. ILG's OEM alternative cartridges are engineered to match OEM in performance and yield, with outstanding quality print with bold and dark graphics print resolution.

ILG is proud to be the first-to-market with this high demand product, enabling ILG to showcase its engineering leadership in the industry. ILG's HP compatible offers substantial cost savings over OEM and is the best match to OEM in performance.

ILG applies several state-of-the art manufacturing technologies to its OEM alternative cartridges. ILG further enhances the extended yield cartridges with the exclusive MPS Certified cartridge certification. The MPS certified cartridges are engineered to support the demanding MPS Providers with the lowest cost-per-print (CPP) MPS solutions.

ILG's comprehensive product line features over 750 SKUs with 250 SKUs in color products. Today over 55% of our business is in color, including our exclusive JUMBO COLOR Line. ILG is one of the world's top private label and private box contract manufacturer, and our cartridges are 100% guaranteed and is STMC certified.

ILG is headquartered in Woodland Hills, California and has four additional nationwide distribution facilities in CA, TX, IL, and PA, allowing us to provide the best and fastest shipping solutions to our resellers.
