World's Only JUMBO COLOR® for HP Series CP3525/CM3530

WOODLAND HILLS, Calif. — **ILG** (International Laser Group) adds OEM alternative color cartridges for **HP Series CP3525/CM3530 Multi-Function Printers**: **CE250X** (Blk), with a 10,500 page yield; **CE251X** (Cyan), with an 8,750 page yield; **CE252X** (Yellow), with an 8,750 page yield; **CE253X** (Magenta), with an 8,750 page yield. ILG's exclusive **JUMBO COLOR®** is the only color toner range that guarantees a 25% page yield increase over the OEM color toner cartridges.

The HP Series CP3525/CM3530 Multi-Function Printers are designed to accelerate business printing activity with easy-to-use multi-function capability allowing for printing and copying up to 31 pages/min. The machines also feature embedded networking capability and enterprise class security features.

ILG is the North American quality leader in color toner cartridge manufacturing and offers an extensive line of HP alternative products in both monochrome and color. ILG is the only company in the world with **JUMBO COLOR®**. ILG's reliable and easy-to-install OEM alternative toner cartridges match OEM page yield and performance. ILG's premium quality toners are 100% guaranteed. Every ILG cartridge is tested to ensure excellent color quality imaging and sharp high-density print results. We test print over 3 million pages per month and conduct multiple pre and post production tests as part of our quality assurance program.
