

International Laser Group Releases HP 5500 Chemical Color Cartridge

August 1, 2004- page(s): 90

WOODLAND HILLS, Calif. – International Laser Group (ILG), an industry-leading manufacturer of premium compatible imaging supplies, announced the release of the compatible HP 5500 chemical polymerized toner cartridge. The top engineers in the industry agree that chemical polymerized toner is the only true HP equivalent.

"Once again, we're extremely proud as this product introduction marks yet another first-to-market milestone for ILG. Like our chemical color 4600 introduction, we've teamed up with the industry's most respected ISO 9002 chemical engineers to bring our customers the aftermarket's closest Hewlett-Packard 5500 color match," said Chairman and CEO Gary Michaels.

Since the company's creation in 1988, ILG has become one of the top worldwide private-label contract remanufacturers with an industry-earned reputation for exceptional price, quality, deliverability and customer satisfaction.
